

## PLAYER CENTRAL - MVP PRODUCT SUMMARY

### Target:

Small to medium tennis & squash clubs (1–12 courts) without proper booking/payment management system

### Core MVP Features:

- Court reservation via mobile web (PWA, no native app needed)
- Simple player identification (only booking name or registered user)
- QR confirmation sent by email
- QR check-in by admin at the club
- On-site payment tracking: Cash / Card / Free
- Daily revenue summary for the club
- Cancellations automatically invalidate QR codes

### Technology Stack (MVP):

- Nuxt 3 (mobile-first UI, clean white sports style)
- Supabase: Auth + Postgres + Storage + Realtime
- PWA for app-like mobile experience
- Online payment (Stripe) reserved for later upgrade
- Optional future: Billing/invoicing integration (e.g. Billingo/Stripe Invoicing)

### Business Model:

- Subscription model based on number of courts:
  - 1–2 courts: \$29/month (Starter)
  - 3–6 courts: \$59/month (Club)
  - 7–12 courts: \$99/month (Pro)
  - 12+ courts: custom pricing (Enterprise)
- Focus on clubs currently using phone, Messenger or Excel for booking

### Scope & Focus (MVP):

- No native mobile apps, only mobile-first web + PWA
- No online payment or refunds in v1 (on-site payment only)
- No integrations with existing booking systems in v1
- Target segment: clubs without proper systems or with very basic/chaotic processes

### Admin Features (MVP):

- Court management (name, type: tennis/squash, active/inactive)
- Booking overview (per day, per court)
- QR scan view for check-in (mobile-friendly)
- Mark payment as: Cash / Card / Free
- Daily revenue summary by payment type
- Cancel / delete bookings (invalidates QR)

### Player Experience (MVP):

- Mobile-first booking flow (fast, minimal data):
  - Choose club (if multi-club view is later added)
  - Choose court
  - Choose date & time
  - If registered: use account name
  - If guest: enter name + email
- Receive email confirmation with QR code
- Optional: Add to Home Screen (PWA shortcut) for app-like usage

### Future Expansion (Post-MVP Ideas):

- Public club map and search (Player-centric discovery)
- Show which clubs are "Bookable in-app" vs "External website"
- Filter by location, sport (tennis/squash), available dates
